FULL STACK DEVELOPER

Ambitious and skilled Full Stack Developer with 2 years of experience collaborating with international and local clients. Proficient in MERN stack and Next.js development, with a strong foundation in problem-solving, effective communication, and team management, seeking a challenging role to deliver innovative web solutions and drive impactful results.

KEY COMPETENCIES

Full Stack Development	Debugging and Code Optimization	Strong interpersonal skills
Responsive UI/UX Design	Critical thinking skills	Proactive and self-motivated
API Development and Integration	Excellent communication skills	Exceptional organisational skills

PROFESSIONAL EXPERIENCE

Entlux E-commerce Store (UAE Client, 2024) **Oct 2024 - Dec 2024**

Freelancer Full Stack Developer

Developed a full-featured e-commerce store for a UAE-based client to sell stationery items. Integrated Stripe for secure payments and implemented robust state management for efficient data handling. Designed an admin panel/dashboard for seamless product management and order tracking.

Blue Ocean Travel Essentials E-Commerce Platform (2024) **Dec 2024 - Jan 2025**

Freelancer Full Stack Developer And Project Manager

Developed a modern e-commerce platform for Blue Ocean, featuring an intuitive admin panel, dynamic location-based pricing, and secure multi-method payments. Built with Next.js, the platform offers a responsive, user-friendly design optimized for global travelers.

Devathon by Devsinc (2024) **September 2024**

Backend Developer of Team

Participated in Devsinc's 2024 Devathon in Lahore, where my team and I tackled a real-life business problem and ranked in the top 10. Contributed as the backend developer, ensuring robust functionality and seamless integration of the solution.
